Project: Southbank Place, 1 Casson Square
Client: Canary Wharf Contractors

On this project, new lighting was installed, downlighters were repositioned and areas made good.

CANARY WHARF
CONTRACTORS

Project: Camden – Water Lane
Client: Mace Group

For this project the leak damaged wall was reinstated with the new plasterboard, skimmed and decorated with joinery new skirtings.

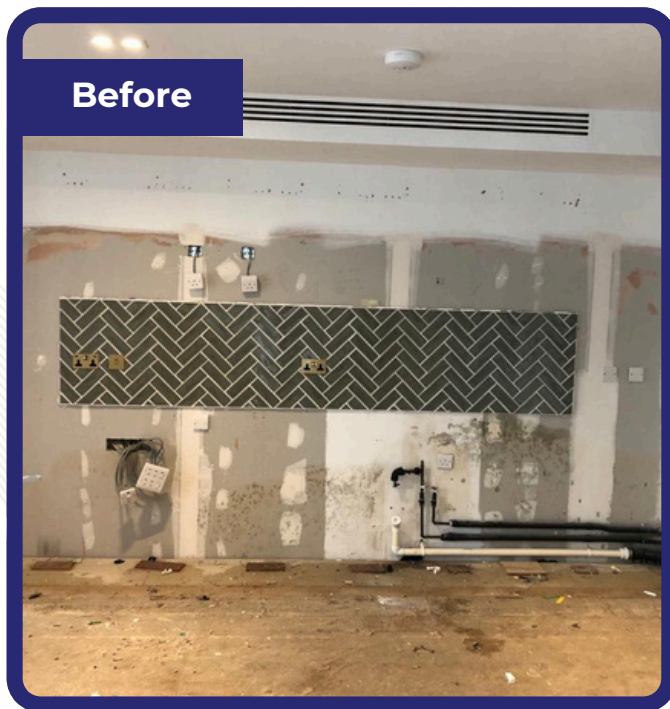

Project: Finsbury Tower
Client: Mace Group

Plumbing services needed to be exposed in the cavity to repair a leak and all surfaces were then reinstated as seen.

Project: Atlas Building, 145 City Road
Client: Atlas Building Management

Water damaged on this project needed all the flooring to be lifted and kitchen to be removed. A new subfloor and hardwood flooring was installed together with a new kitchen and all surfaces then made good.

Project: Barking, Crown House
Client: McLaren Construction

Water damage to this property required the removal of kitchen units, vinyl flooring and damaged plasterboard. This was then re-instated to its original as seen. Bathroom was stripped out following the water damage and re-instated as shown.
